\* Sharps waste will **ONLY** be accepted by the pharmacy in a sharps container (yellow box with a green lid). These containers are available to be borrowed at the pharmacy, free of cost and returned to the same pharmacy with the sharps. Where a cost has been specified, the container must be purchased from the pharmacy at the cost mentioned.

**Note:** Pharmacies will not accept sharps waste from commercial operations like a physician's clinic or a health care facility – only and only from general population.
