**ATTENTION: WATER CUSTOMERS**

**RE: INGERSOLL – WATERMAIN FLUSHING**

---

This is to inform you that Oxford County plans to perform additional flushing of the watermains in the area northwest of the intersection of Victoria Street and Thames Street as shown on the map on the back of this notice, to help prevent discoloured water. The discolouration is due mainly to old cast iron watermains in the area. The water is tested regularly in accordance with the Safe Drinking Water Act and there have been no health concerns identified.

**The watermain flushing will occur between 10:00 pm to 6:00 am on the evenings of Wednesday August 21 and Thursday August 22.**

While the flushing is occurring, your water may be discoloured and residents should minimize use of the water. If you notice discoloured water, an outside tap or a cold water faucet not connected to a water softener or filter should be turned on in order to flush the water from your plumbing.

If you have any questions please contact Todd Gregg, Water-Wastewater Operations Coordinator at 519-539-9800 ext. 3129 or [tgregg@oxfordcounty.ca](mailto:tgregg@oxfordcounty.ca).

This notice issued August 13, 2013.
